## EXHIBIT INDEX

<b>Exhibit No.</b>	<b>Description</b>
99.1	Press release of Molina Healthcare, Inc. issued May 2, 2017, as to financial results for the first quarter ended March 31, 2017.

## Molina Healthcare Reports First Quarter 2017 Results

LONG BEACH, Calif.--(BUSINESS WIRE)--May 2, 2017--Molina Healthcare, Inc. (NYSE: MOH)

- Net income per diluted share for the quarter of \$1.37.
- Adjusted net income per diluted share for the quarter of \$1.47.
- Results include the benefit of a \$75 million (\$0.84 per diluted share) acquisition termination fee received in the first quarter.
- Full year 2017 earnings per diluted share and adjusted earnings per diluted share guidance revised to reflect acquisition termination fee; full year 2017 guidance is otherwise confirmed.

Molina Healthcare, Inc. (NYSE: MOH) today reported its financial results for the first quarter of 2017.

“While we are pleased with the results we reported today, we understand that they represent only one step along the path to improving on our 2016 results,” said Joseph White, interim chief executive officer and chief financial officer of Molina Healthcare, Inc. “Our entire Company is focused on improving our profitability in 2017 and beyond.”

### First Quarter 2017 Compared with First Quarter 2016

Net income per diluted share increased to \$1.37 in the first quarter of 2017 compared with \$0.43 reported for the first quarter of 2016. Adjusted net income per diluted share increased to \$1.47 in the first quarter of 2017, compared with \$0.51 in the first quarter of 2016. Income before income taxes increased \$67 million to \$131 million in the first quarter of 2017 from \$64 million in the first quarter of 2016.

First quarter financial performance was affected by the following developments:

- As previously reported, we received a payment of \$75 million (\$0.84 per diluted share) relating to the termination of a proposed Medicare acquisition, which was recorded as other income in the first quarter of 2017.
  - The performance of our Marketplace program was consistent with management’s expectations. Income before income taxes increased by \$8 million (\$0.09 per diluted share) as a result of a reduction to the premium deficiency reserve established for the Marketplace program at December 31, 2016. The reserve, which was \$30 million at December 31, 2016, decreased to \$22 million as of March 31, 2017.
  - The performance of our combined Medicaid and Medicare programs was consistent with management’s expectations, with the exception of the unfavorable prior-period development of medical claims liabilities in Illinois discussed below.
  - Medical costs at the Illinois health plan related to dates of service in 2016 and earlier reduced income before income taxes by approximately \$20 million (\$0.22 per diluted share) in the first quarter. Excluding this out-of-period impact in Illinois, the medical care ratio for our combined Medicaid and Medicare programs was consistent with the expectations reflected in our previously announced full year 2017 Outlook.
  - General and administrative expenses as a percentage of total revenue (the “G&A ratio”) were 8.9% in the first quarter, consistent with the G&A ratio anticipated in our previously announced full year 2017 Outlook. As expected, our G&A ratio increased over 2016 primarily due to: 1) increased investment in systems and infrastructure; 2) employee bonuses recorded in 2017 but not in 2016; 3) costs associated with increased Marketplace enrollment in 2017; and 4) the reduction to revenue as a result of the 2017 Health Insurer Fee (HIF) moratorium.
  - The effective tax rate in the first quarter of 2017, while consistent with our previously announced full year 2017 Outlook, dropped substantially from prior year levels due primarily to the 2017 HIF moratorium.
-

**2017 Outlook**

The Company is confirming its 2017 Outlook for earnings per diluted share and adjusted earnings per diluted share, to \$2.53 and \$2.90, respectively, and revising the 2017 Outlook for the impact of the \$75 million acquisition termination fee received in the first quarter of 2017.

**Conference Call**

Management will host a conference call and webcast to discuss Molina Healthcare's first quarter results at 5:00 p.m. Eastern time on Tuesday, May 2, 2017. The number to call for the interactive teleconference is (212) 231-2909. **Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995:** This earnings release contains “forward-looking statements” regarding our plans, expectations, and anticipated future events. Actual results could differ materially due to numerous known and unknown risks and uncertainties. Those known risks and uncertainties include, but are not limited to, the following:

- the success of our profit improvement and cost-cutting initiatives;
- the numerous political and market-based uncertainties associated with the Affordable Care Act (the “ACA”) or “Obamacare,” including any potential repeal and replacement of the law, amendment of the law, or move to state block grants for Medicaid;
- the market dynamics surrounding the ACA Marketplaces, including but not limited to uncertainties associated with risk transfer requirements, the potential for disproportionate enrollment of higher acuity members, the withdrawal of cost sharing subsidies and/or premium tax credits, the adequacy of agreed rates, and potential disruption associated with market withdrawal;
- subsequent adjustments to reported premium revenue based upon subsequent developments or new information, including changes to estimated amounts payable or receivable related to Marketplace risk adjustment/risk transfer, risk corridors, and reinsurance;
- management of our medical costs, including our ability to reduce over time the high medical costs commonly associated with new patient populations;
- our ability to predict with a reasonable degree of accuracy utilization rates, including utilization rates in new plans, geographies, and programs where we have less experience with patient and provider populations, and also including utilization rates associated with seasonal flu patterns or other newly emergent diseases;
- significant budget pressures on state governments and their potential inability to maintain current rates, to implement expected rate increases, or to maintain existing benefit packages or membership eligibility thresholds or criteria, including the resolution of the Illinois budget impasse and continued payment of all amounts due to our Illinois health plan;
- the success of our efforts to retain existing government contracts, including those in Illinois, Washington, Florida, Texas, and New Mexico, and to obtain new government contracts in connection with state requests for proposals (RFPs) in both existing and new states;
- our ability to manage growth, including maintaining and creating adequate internal systems and controls relating to authorizations, approvals, provider payments, and the overall success of our care management initiatives;
- our ability to consummate and realize benefits from acquisitions, and to integrate acquisitions;
- our receipt of adequate premium rates to support increasing pharmacy costs, including costs associated with specialty drugs and costs resulting from formulary changes that allow the option of higher-priced non-generic drugs;
- our ability to operate profitably in an environment where the trend in premium rate increases lags behind the trend in increasing medical costs;
- the interpretation and implementation of federal or state medical cost expenditure floors, administrative cost and profit ceilings, premium stabilization programs, profit sharing arrangements, and risk adjustment provisions;
- our estimates of amounts owed for such cost expenditure floors, administrative cost and profit ceilings, premium stabilization programs, profit-sharing arrangements, and risk adjustment provisions;
- the Medicaid expansion cost corridors in California, New Mexico and Washington, and any other retroactive adjustment to revenue where methodologies and procedures are subject to interpretation or dependent upon information about the health status of participants other than Molina members;
- the interpretation and implementation of at-risk premium rules and state contract performance requirements regarding the achievement of certain quality measures, and our ability to recognize revenue amounts associated therewith;
- cyber-attacks or other privacy or data security incidents resulting in an inadvertent unauthorized disclosure of protected health information;
- the success of our health plan in Puerto Rico, including the resolution of the Puerto Rico debt crisis, payment of all amounts due under our Medicaid contract, the effect of the PROMESA law, and our efforts to better manage the health care costs of our Puerto Rico health plan;
- the success and renewal of our duals demonstration programs in California, Illinois, Michigan, Ohio, South Carolina, and Texas;
- the accurate estimation of incurred but not reported or paid medical costs across our health plans;
- efforts by states to recoup previously paid and recognized premium amounts;
- the continuation and renewal of the government contracts of our health plans, Molina Medicaid Solutions, and Pathways, and the terms under which such contracts are renewed;
- complications, member confusion, or enrollment backlogs related to the annual renewal of Medicaid coverage;
- government audits and reviews, or potential investigations, and any fine, sanction, enrollment freeze, monitoring program, or premium recovery that may result therefrom;
- changes with respect to our provider contracts and the loss of providers;
- approval by state regulators of dividends and distributions by our health plan subsidiaries;
- changes in funding under our contracts as a result of regulatory changes, programmatic adjustments, or other reforms;
- high dollar claims related to catastrophic illness;
- the favorable resolution of litigation, arbitration, or administrative proceedings;
- the relatively small number of states in which we operate health plans;
- the availability of adequate financing on acceptable terms to fund and capitalize our expansion and growth, repay our outstanding indebtedness at maturity and meet our liquidity needs, including the interest expense and other costs associated with such financing;
- our failure to comply with the financial or other covenants in our credit agreement or the indentures governing our outstanding notes;
- the sufficiency of our funds on hand to pay the amounts due upon conversion or maturity of our outstanding notes;
- the failure of a state in which we operate to renew its federal Medicaid waiver;
- changes generally affecting the managed care or Medicaid management information systems industries;
- increases in government surcharges, taxes, and assessments, including but not limited to the deductibility of certain compensation costs;
- newly emergent viruses or widespread epidemics, public catastrophes or terrorist attacks, and associated public alarm;
- increasing competition and consolidation in the Medicaid industry;

*and numerous other risk factors, including those discussed in our periodic reports and filings with the Securities and Exchange Commission. These reports can be accessed under the investor relations tab of our website or on the SEC's website at [sec.gov](http://sec.gov). Given these risks and uncertainties, we can give no assurances that our forward-looking statements will prove to be accurate, or that any other results or events projected or contemplated by our forward-looking statements will in fact occur, and we caution investors not to place undue reliance on these statements. All forward-looking statements in this release represent our judgment as of May 2, 2017, and we disclaim any obligation to update any forward-looking statements to conform the statement to actual results or changes in our expectations.*

(1) A member month is defined as the aggregate of each month's ending membership for the period presented.

(2) The MCR represents medical costs as a percentage of premium revenue.

(3) The New York health plan was acquired on August 1, 2016.

(4) "Other" medical care costs include primarily medically related administrative costs at the parent company, and direct delivery costs.

Other <sup>(1)</sup>	332	428
	<u>\$ 1,926</u>	<u>\$ 1,929</u>

(1) "Other" medical claims and benefits payable include amounts payable to certain providers for which we act as an intermediary on behalf of various state agencies without assuming financial risk. Such receipts and payments do not impact our consolidated statements of income. As of March 31, 2017 and December 31, 2016, we had recorded non-risk provider payables of approximately \$131 million and \$225 million, respectively.

**MOLINA HEALTHCARE, INC.**  
**UNAUDITED CHANGE IN MEDICAL CLAIMS AND BENEFITS PAYABLE**  
(Dollars in millions, except per-member amounts)

Our claims liability includes a provision for adverse claims deviation based on historical experience and other factors including, but not limited to, variations in claims payment patterns, changes in utilization and cost trends, known outbreaks of disease, and large claims. Our reserving methodology is consistently applied across all periods presented. The amounts displayed for "Components of medical care costs related to: Prior period" represent the amount by which our original estimate of claims and benefits payable at the beginning of the period were more than the actual amount of the liability based on information (principally the payment of claims) developed since that liability was first reported. The following table presents the components of the change in medical claims and benefits payable for the periods indicated:

	<u>Three Months Ended March 31,</u>		<u>Year Ended</u>
	<u>2017</u>	<u>2016</u>	<u>December 31,</u>

**UNAUDITED NON-GAAP FINANCIAL MEASURES**

We use non-GAAP financial measures as supplemental metrics in evaluating our financial performance, making financing and business decisions, and forecasting and planning for future periods. For these reasons, management believes such measures are useful supplemental measures to investors in comparing our performance to the performance of other public companies in the health care industry. These non-GAAP financial measures should be considered as supplements to, and not as substitutes for or superior to, GAAP measures. See further information regarding non-GAAP measures below the tables (in millions, except per diluted share amounts).

(2) Computation assumes 58.2 million diluted weighted average shares outstanding.

The following are descriptions of the adjustments made to GAAP measures used to calculate the non-GAAP measures used in this news release:

**Earnings before interest, taxes, depreciation and amortization (EBITDA):** Net income (GAAP) less depreciation, and amortization of intangible assets and capitalized software, interest expense and income tax expense. We believe that EBITDA is helpful in assessing our ability to meet the cash demands of our operating units.

**Adjusted net income:** Net income (GAAP) less amortization of intangible assets, net of income tax effect calculated at the statutory tax rate of 37%. We believe that adjusted net income is helpful in assessing our financial performance exclusive of the non-cash impact of the amortization of purchased intangibles.

**Adjusted net income per diluted share:** Adjusted net income divided by weighted average common shares outstanding on a fully diluted basis.
