#### Item 2.02. Results of Operations and Financial Condition.

On November 2, 2017, Molina Healthcare, Inc. (the "Company") issued a press release announcing its financial results for the third quarter ended September 30, 2017, and the results of an impairment assessment discussed in Item 2.06 below (the "November 2<sup>nd</sup> Press Release"). The full text of the November 2<sup>nd</sup> Press Release is included as Exhibit 99.1 to this report. The information contained in the website cited in the November 2<sup>nd</sup> Press Release is not part of this report.

#### Item 2.06. Material Impairments.

The Company will report \$129 million in non-cash goodwill impairment losses, for its Pathways behavioral health subsidiary and Molina Medicaid Solutions (MMS) segment, in its Form 10-Q for the quarter ended September 30, 2017. In the third quarter of 2017, management determined that neither business will provide future benefits relating to the integration of their operations with the Health Plans segment to the extent previously expected. While such impairment losses have a short-term impact on profitability, there is no impact to the Company's cash flows.

The information under Item 2.02 of this Form 8-K and the exhibit attached hereto shall not be deemed to be "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except as expressly set forth by specific reference in such a filing.

### MOLINA HEALTHCARE ANNOUNCES THIRD QUARTER RESULTS

- Net loss of \$1.70 per diluted share for the quarter.
- Results for the quarter include \$3.16 per diluted share in impairment and restructuring costs.
- Medical care ratio for the quarter of 88.3%.
- \$200 million of annualized run-rate savings to be effective January 1, 2018, achieved in Q3 under restructuring plan.
- \$300 million to \$400 million of total annualized run-rate savings expected by end of 2018.
- Joseph M. Zubretsky appointed President, Chief Executive Officer and Director, effective November 6, 2017.

Long Beach, California (November 2, 2017) - Molina Healthcare, Inc. (NYSE: MOH) today reported its financial results for the third quarter of 2017.

"During the third quarter, we made significant progress on our restructuring efforts, bringing us one step closer to becoming a more consistent and profitable company. While there's still more work ahead, our improved performance and our continued success toward achieving \$200 million in annualized run-rate savings as of January 1, 2018, demonstrate that we are on the right track," said Joseph White, chief financial officer and interim president and chief executive officer of Molina Healthcare, Inc. "Additionally, we are extremely fortunate to have our new CEO, Joseph Zubretsky, starting next Monday. His leadership and operational acumen will significantly augment our efforts and will enable us to continue our mission as a stronger, more profitable company."

# Third Quarter 2017 Compared with Third Quarter 2016

Net loss per diluted share was \$1.70 for the third quarter of 2017 compared with net income per diluted share of \$0.76 reported for the third quarter of 2016. Loss before income tax benefit for the third quarter of 2017 was \$113 million.

- Medical care costs measured as a percentage of premium revenue (the "medical care ratio") declined to 88.3% in the third quarter of 2017 from 89.4% in the third quarter of 2016 and from 94.8% in the second quarter of 2017. Improved medical cost performance in the third quarter of 2017 was the result of:
  - Improved sequential performance at our Illinois, New Mexico, Ohio, Puerto Rico, Texas, and Washington health plans, exclusive of the Marketplace program.

- Improved performance of our Marketplace program, including a reduction to the premium deficiency reserve of \$30 million (\$0.33 per diluted share, net of tax). The reserve, which was \$100 million at June 30, 2017, decreased to \$70 million as of September 30, 2017.
- General and administrative costs, measured as a percentage of total revenue (the "administrative cost ratio"), were 7.6% in the third quarter of 2017, consistent with the third quarter of 2016, and 50 basis points lower than the second quarter of 2017. Excluding Marketplace broker commission and exchange fees, the administrative cost ratio decreased 30 basis points from the third quarter of 2016.

Restructuring costs and the impairment of certain purchased intangible assets increased loss before income tax benefit in the third quarter of 2017 by approximately \$247 million. Specifically:

- We recorded \$118 million (\$1.39 per diluted share, net of tax) of restructuring costs in the third quarter of 2017. Restructuring costs incurred to date consist primarily of termination benefits, write-offs of capitalized software due to the re-design of our core operating processes, restructuring of our direct delivery operations, and consulting fees.
- We recorded \$129 million (\$1.77 per diluted share, net of tax) in non-cash goodwill impairment losses for our Pathways behavioral health subsidiary and our Molina Medicaid Solutions (MMS) segment. In the third quarter of 2017, management determined that neither business will provide future benefits relating to the integration of their operations with the Health Plans segment to the extent previously expected.

The table below summarizes the impact of certain items significant to our financial performance in the periods presented.

(1) Except for certain items that are not deductible for tax purposes, per diluted share amounts are generally calculated at our statutory income tax rate of 37%, which is in excess of the effective tax rate recorded in our consolidated statements of operations.

# Marketplace Cost Share Reduction (CSR) Update

Our third quarter results do not include any potential impact from the October 12, 2017, direction to Centers for Medicare and Medicaid Services (CMS) from Acting Department of Health and Human Services Secretary Hargan to cease payment of Marketplace CSR subsidies. At September 30, 2017, we had a total of approximately \$220 million in excess CSR subsidies, recorded as a payable to CMS. This payable represents the extent to which payments received by us from CMS exceeded our estimate of the actual cost of member subsidies incurred by us through September 30, 2017.

We expect to incur approximately \$85 million in unreimbursed expense associated with the cessation of CSR subsidies in the fourth quarter of 2017. It has been the practice of CMS to perform a reconciliation on an annual basis of CSR subsidies paid to all health plans against the actual costs incurred by the health plans. Were such a reconciliation to be performed for the full calendar year of 2017—consistent with past practice—we would be able to offset nearly all of the \$85 million expense incurred in the fourth quarter

MOH Reports Third Quarter 2017 Results Page 3 November 2, 2017

against the excess amounts received prior to September 30, 2017. However, should CMS transition to a nine month reconciliation period ending September 30, 2017—the last month for which CSR subsidies have been paid—the absence of CSR subsidy reimbursement would reduce income before income tax expense by approximately \$85 million in the fourth quarter of 2017.

# Income Tax (Benefit) Expense

The effective tax benefit for 2017 is less than the statutory tax benefit due to the relatively large amount of our reported expenses that are not deductible for tax purposes, primarily relating to goodwill impairment losses and separation costs.

# Restructuring and Profit Improvement Plan Update

As previously disclosed, we estimate that our restructuring plan will reduce annualized run-rate expenses by approximately \$300 million to \$400 million when completed by the end of 2018. We have already achieved \$200 million of these run-rate reductions on an annualized basis, which will take full effect no later than January 1, 2018. Our third quarter results include approximately \$10 million of these reductions. All savings targets discussed in regards to the restructuring plan represent annualized run-rate savings that we expect to achieve during the year following the indicated implementation date. We expect one-time costs associated with the restructuring plan to exceed the benefits realized in 2017 due to the upfront payment of implementation costs and the delayed benefit of full savings until the beginning of 2018.

We estimate that total pre-tax costs associated with the restructuring plan will be approximately \$70 million to \$90 million in the fourth quarter of 2017, with an additional \$20 million to \$40 million to be incurred in 2018.

### Marketplace 2018 Update

We have taken the following steps in regards to our participation in the ACA Marketplace in 2018:

- 1. As previously announced, we will exit the Utah and Wisconsin ACA Marketplaces effective December 31, 2017.
- 2. In our remaining Marketplace plans, we are increasing 2018 premiums by 55% to take into account the absence of cost sharing reduction (CSR) subsidies and other risks related to ACA Marketplace uncertainties.
- 3. We have reduced the scope of our 2018 participation in the state of Washington Marketplace.
- 4. We continue to monitor the current political and programmatic developments pertaining to the ACA Marketplace.

### **Chief Executive Officer Named**

On October 10, 2017, Molina announced that Joseph M. Zubretsky had been named as the Company's new President and Chief Executive Officer, effective November 6, 2017. Mr. Zubretsky, who most recently served as President and Chief Executive Officer for The Hanover Insurance Group and a member of its board of directors, also served almost nine years at Aetna, Inc., one of the nation's largest healthcare benefits and insurance providers, where he most recently served as Chief Executive Officer of Healthagen Holdings, a group of healthcare services and information technology companies. Prior to that, from 2013 to 2014, he served as Senior Executive Vice President, leading Aetna's National Businesses, and from 2007 to 2013 served as Aetna's Chief Financial Officer.

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995: This earnings release contains "forward-looking statements" regarding our plans, expectations, and anticipated future events. Actual results could differ materially due to numerous known and unknown risks and uncertainties. Those known risks and uncertainties include, but are not limited to, the following:

• the success of our previously announced restructuring plan, including the timing and amounts of the benefits realized;

- the numerous political and market-based uncertainties associated with the Affordable Care Act (the "ACA") or "Obamacare," including any potential repeal and replacement of the law, amendment of the law, or move to state block grants for Medicaid;
- the market dynamics surrounding the ACA Marketplaces, including but not limited to uncertainties associated with risk transfer requirements, the potential for disproportionate enrollment of higher acuity members, the discontinuation of premium tax credits, the adequacy of agreed rates, and potential disruption associated with market withdrawal from Utah, Wisconsin, or other states;
- subsequent adjustments to reported premium revenue based upon subsequent developments or new information, including changes to
  estimated amounts payable or receivable related to Marketplace risk adjustment/risk transfer, risk corridors, and reinsurance;
- effective management of our medical costs;
- our ability to predict with a reasonable degree of accuracy utilization rates, including utilization rates associated with seasonal flu patterns or other newly emergent diseases;
- significant budget pressures on state governments and their potential inability to maintain current rates, to implement expected rate increases, or to maintain existing benefit packages or membership eligibility thresholds or criteria, including the payment of all amounts due to our Illinois health plan following the resolution of the Illinois budget impasse;
- the success of our efforts to retain existing government contracts, including those in Florida, New Mexico, Puerto Rico, and Texas, and to obtain new government contracts in connection with state requests for proposals (RFPs) in both existing and new states;
- any adverse impact resulting from the significant changes to our executive leadership team and the rightsizing of our workforce;
- the impact of our decision to exit the Utah and Wisconsin ACA Marketplace markets effective December 31, 2017;
- our ability to manage our operations, including maintaining and creating adequate internal systems and controls relating to authorizations, approvals, provider payments, and the overall success of our care management initiatives;
- our ability to consummate and realize benefits from acquisitions or divestitures;
- our receipt of adequate premium rates to support increasing pharmacy costs, including costs associated with specialty drugs and costs resulting from formulary changes that allow the option of higher-priced non-generic drugs;
- our ability to operate profitably in an environment where the trend in premium rate increases lags behind the trend in increasing medical costs;
- the interpretation and implementation of federal or state medical cost expenditure floors, administrative cost and profit ceilings, premium stabilization programs, profit sharing arrangements, and risk adjustment provisions;
- our estimates of amounts owed for such cost expenditure floors, administrative cost and profit ceilings, premium stabilization programs, profit-sharing arrangements, and risk adjustment provisions;
- the Medicaid expansion cost corridors in California, New Mexico, and Washington, and any other retroactive adjustment to revenue where methodologies and procedures are subject to interpretation or dependent upon information about the health status of participants other than Molina members;
- the interpretation and implementation of at-risk premium rules and state contract performance requirements regarding the achievement of certain quality measures, and our ability to recognize revenue amounts associated therewith;
- cyber-attacks or other privacy or data security incidents resulting in an inadvertent unauthorized disclosure of protected health information;
- the success of our health plan in Puerto Rico, including the resolution of the Puerto Rico debt crisis, payment of all amounts due under our Medicaid contract, the effect of the PROMESA law, the impact of Hurricane Maria and our efforts to better manage the health care costs of our Puerto Rico health plan;

MOH Reports Third Quarter 2017 Results Page 6 November 2, 2017

- the success and renewal of our duals demonstration programs in California, Illinois, Michigan, Ohio, South Carolina, and Texas;
- the accurate estimation of incurred but not reported or paid medical costs across our health plans;
- efforts by states to recoup previously paid and recognized premium amounts;
- complications, member confusion, or enrollment backlogs related to the annual renewal of Medicaid coverage;
- government audits and reviews, or potential investigations, and any fine, sanction, enrollment freeze, monitoring program, or premium recovery that may result therefrom, including any potential demand by the state of New Mexico to recover purportedly underpaid premium taxes;
- changes with respect to our provider contracts and the loss of providers;
- approval by state regulators of dividends and distributions by our health plan subsidiaries;
- changes in funding under our contracts as a result of regulatory changes, programmatic adjustments, or other reforms;
- high dollar claims related to catastrophic illness;
- the favorable resolution of litigation, arbitration, or administrative proceedings;
- the relatively small number of states in which we operate health plans;
- the availability of adequate financing on acceptable terms to fund and capitalize our expansion and growth, repay our outstanding indebtedness at maturity and meet our liquidity needs, including the interest expense and other costs associated with such financing;
- our failure to comply with the financial or other covenants in our credit agreement or the indentures governing our outstanding notes;
- the sufficiency of our funds on hand to pay the amounts due upon conversion or maturity of our outstanding notes;
- the failure of a state in which we operate to renew its federal Medicaid waiver;
- changes generally affecting the managed care or Medicaid management information systems industries;
- increases in government surcharges, taxes, and assessments, including but not limited to the deductibility of certain compensation costs;
- newly emergent viruses or widespread epidemics, public catastrophes or terrorist attacks, and associated public alarm;
- increasing competition and consolidation in the Medicaid industry;

and numerous other risk factors, including those discussed in our periodic reports and filings with the Securities and Exchange Commission. These reports can be accessed under the investor relations tab of our website or on the SEC's website at <u>sec.gov</u>. Given these risks and uncertainties, we can give no assurances that our forward-looking statements will prove to be accurate, or that any other results or events projected or contemplated by our forward-looking statements will in fact occur, and we caution investors not to place undue reliance on these statements. All forward-looking statements in this release represent our judgment as of November 2, 2017, and we disclaim any obligation to update any forward-looking statements to conform the statement to actual results or changes in our expectations.

Such receipts and payments do not impact our consolidated statements of operations. As of September 30, 2017 and December 31, 2016, we had recorded non-risk provider payables of approximately \$403 million and \$225 million, respectively.

#### MOLINA HEALTHCARE, INC. UNAUDITED CHANGE IN MEDICAL CLAIMS AND BENEFITS PAYABLE (Dollars in millions, except per-member amounts)

Our claims liability includes a provision for adverse claims deviation based on historical experience and other factors including, but not limited to, variations in claims payment patterns, changes in utilization and cost trends, known outbreaks of disease, and large claims. Our reserving methodology is consistently applied across all periods presented. The amounts displayed for "Components of medical care costs related to: Prior period" represent the amount by which our original estimate of claims and benefits payable at the beginning of the period were less (more) than the actual amount of the liability based on information (principally the payment of claims) developed since that liability was first reported. The following table presents the components of the change in medical claims and benefits payable for the periods indicated:

### MOLINA HEALTHCARE, INC. UNAUDITED NON-GAAP FINANCIAL MEASURES

We use non-GAAP financial measures as supplemental metrics in evaluating our financial performance, making financing and business decisions, and forecasting and planning for future periods. For these reasons, management believes such measures are useful supplemental measures to investors in comparing our performance to the performance of other public companies in the health care industry. These non-GAAP financial measures should be considered as supplements to, and not as substitutes for or superior to, GAAP measures. See further information regarding non-GAAP measures below the tables (in millions, except per diluted share amounts).

The following are descriptions of the adjustments made to GAAP measures used to calculate the non-GAAP measures used in this news release:

Earnings before interest, taxes, depreciation and amortization (EBITDA): Net (loss) income (GAAP) less depreciation, and amortization of intangible assets and capitalized software, interest expense and income tax (benefit) expense. We believe that EBITDA is helpful in assessing our ability to meet the cash demands of our operating units.

Adjusted net (loss) income: Net (loss) income (GAAP) less amortization of intangible assets, net of income tax effect calculated at the statutory tax rate of 37%. We believe that adjusted net (loss) income is helpful in assessing our financial performance exclusive of the non-cash impact of the amortization of purchased intangibles.

Adjusted net (loss) income per diluted share: Adjusted net (loss) income divided by weighted average common shares outstanding on a fully diluted basis.
